

ID	BR00006
Summary	There is no error message when uploading a document instead of an avatar
Pre-conditions	A profile must be created
	Profile settings are open
Steps	1. Click on Profile Photo
	2. Click on the "Add profile photo" button
	3. Click on the "Choose from computer" button
	4. Select This computer-Documents-Application (.docx)
	5. Click on the "Open" button
Expected result	A message should appear like this: Invalid file format. Download the recommended .jpeg and .png formats
Actual result	The Application document (.docx) has been uploaded in place of the avatar
Post-condition	
Environment	Version 129.0.6668.90 (Official build), (64 bit). All browsers
Severity	low
Priority	low
Type of bug	Functional/Logical
Attachment	Screenshot
