

The screenshot shows a SQL IDE interface with a menu bar (File, Edit, View, Query, Database, Server, Tools, Scripting, Help) and a toolbar. The left sidebar contains a 'SCHEMAS' tree with 'db1' expanded, showing 'Tables' (faculties, groups, students, universities), 'Views', 'Stored Procedures', and 'Functions'. Below this is the 'Administration' tab with 'Schemas' selected, showing 'Table: students' with columns: StudentId (int AI PK), StudentName (varchar(20)), StudentSurname (varchar(20)), Age (int), and GroupId (int).

The main query editor shows five queries:

- 5 `select * from db1.Students where StudentName = "Іван"`
- 6
- 7 `select * from db1.Groups where GroupNumber > 300`
- 8
- 9 `select * from db1.Universities where UniName like "%Y%"`
- 10
- 11 `select * from db1.Students order by StudentSurname`

The 'Result Grid' for the fifth query (Query 7) displays the following data:

StudentId	StudentName	StudentSurname	Age	GroupId
83	Марат	Абаровський	18	42
47	Юлія	Андрийченко	20	24
13	Георгій	Антипенко	18	7
33	Георгій	Антипенко	18	17
112	Євген	Асадов	17	56
62	Валерія	Бабич	17	31
45	Світлана	Балаш	19	23
113	Олексій	Баранов	18	57
73	Поліна	Бас	18	37
103	Ірина	Бибик	18	52
95	Денис	Білоцерковець	19	48
88	Наталія	Бойко	20	44
122	Маргарита	Бойченко	17	61
55	Аліна	Бородкіна	19	28
126	Геннадій	Василенко	19	63
134	Валентина	Васютіна	18	67
125	Анастасія	Вербицька	19	63
87	Андрій	Ворожний	17	41

The 'Output' pane at the bottom shows the execution log:
