	5. In the Email field, enter the valid value "nazarenko@gmail.com"	5. After viewing the filtered product, click the button "Скинути фільтри"			
	6. In the Phone field, enter the valid value "0661055339"				
	7. Select "Ukrainian (Ukraine)" in the Language field				
	8. Enter "1" in the Password field				
	9. Enter "1" in the Confirm password field				
	10. Enter the proposed captcha				
	11. Click on the button "Sign up"				
Expected result	A message should appear stating that the password should be more complex and that the password requirements	The "Apple" checkbox for the Manufacturer filter should be unchecked. The page should then display all products in the category "Клавіатури" from all manufacturers.	The button that appears under the filters, next to the button "Показати", should have the name "Скинути фільтри" or "Відмінити фільтри" in Ukrainian	The second sentence in the first line should have the following text: Приймання товару на гарантійне обслуговування відбувається ТІЛЬКИ через Нову Пошту.	The names of all radio buttons in the sections "Доставка" and "Оплата" are placed at the same level as the radio buttons
Actual result	A field for entering the registration confirmation code appeared	The filter by the manufacturer "Apple" remained stuck. On the page, only Apple products are selected.	The button is called in Russian "Сбросить фильтры"	The second sentence in the first line has the following text: Приймання товару на гарантійне обслуговування відбуватися ТІЛЬКИ через Нову Пошту.	The names of all radio buttons in the sections "Доставка" and "Оплата" are moved above the level of the radio buttons' location
