

The screenshot displays the Fiddler web proxy interface. On the left, the 'Snapshots' pane shows a list of captured HTTP requests. The main pane is divided into 'Request' and 'Response' sections. The 'Request' section shows a GET request to 'https://petstore.swagger.io/v2/store/order' with a status of 200. The 'Response' section shows the JSON body of the response, which is a list of pet inventory items.
